## Question:

## Hypothesis:

## Procedure:

## Data:

Instructions: As a group, fill in the charts below with information based on the Spring Bird Count of each member in your group. Place an $\mathbf{X}$ in the chart if a student did not make an observation during a time period. Put a $\mathbf{0}$ (zero) in the chart if no birds were observed during a time period.

## Number of Bird based on Time of Day

| Student |  | $\begin{aligned} & \text { Before } \\ & \text { 9:00 AM } \end{aligned}$ | $\begin{array}{r} 9: 00- \\ 12: 00 \end{array}$ | $\begin{gathered} 12: 00 \\ 3: 00 \end{gathered}$ | $\begin{gathered} \text { After } \\ \text { 3:00 PM } \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 1 |  |  |  |  |  |
| 2 |  |  |  |  |  |
| 3 |  |  |  |  |  |
| 4 |  |  |  |  |  |
| 5 |  |  |  |  |  |
|  |  |  |  |  |  |
|  | Total \# Birds |  |  |  |  |
|  | \# of Observations |  |  |  |  |
|  | Average \# Birds / Observation |  |  |  |  |

## Number of Species based on Time of Day

| Student |  | $\begin{aligned} & \text { Before } \\ & 9: 00 \text { AM } \end{aligned}$ | $\begin{array}{r} 9: 00- \\ 12: 00 \end{array}$ | $\begin{gathered} 12: 00 \\ 3: 00 \end{gathered}$ | $\begin{gathered} \text { After } \\ \text { 3:00 PM } \end{gathered}$ |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 1 |  |  |  |  |  |
| 2 |  |  |  |  |  |
| 3 |  |  |  |  |  |
| 4 |  |  |  |  |  |
| 5 |  |  |  |  |  |
|  |  |  |  |  |  |
|  | Total \# Species |  |  |  |  |
|  | \# of Observations |  |  |  |  |
|  | \# Species / Observation |  |  |  |  |

## Conclusions:
